Towel Doll

You can make this cute and cuddlesome rag doll out of a towel. First spread the towel out flat. Then lay a small bunch of clean rags right in the middle of it, as shown in *Picture One*. Gather the towel together under the bunch of rags, to form the round head of your doll. Wind some string or a piece of ribbon under the head and tie it.

Now lift up one corner of the towel and tie it with string or ribbon to form a hand. Do this with the opposite corner of the towel to make the other arm, and your doll will be shaped like the one shown in *Picture Two*. If you like, you can paint or crayon a face on the head of your doll; but face or no face, she will be just as cuddlesome to take to bed with you.

K.T.L.

Teddy Bear

Take your pencil and start on dot number one. Draw a line from dot one to dot two. Continue from one dot to another until you have made a complete picture.
