**BRAIN TWISTER**

There's a man who lives in an apartment on the twentieth floor. Everyday he goes to work using the elevator to get to the first floor. When he comes home on sunny days he uses the elevator to go to the tenth floor and walks up ten flights of stairs to get to his apartment, on rainy days he uses the elevator to go up the whole twenty-floors. Why doesn't he use the elevator everyday?

Because he is a midget. On rainy days he uses his umbrella to hit the twentieth floor burton, which is at the top where he can't reach it.
