Where's My Nest?

The tiny harvest mouse builds a nest of leaves! Help this little mouse find her nest!

ENDANGERED WILDLIFE

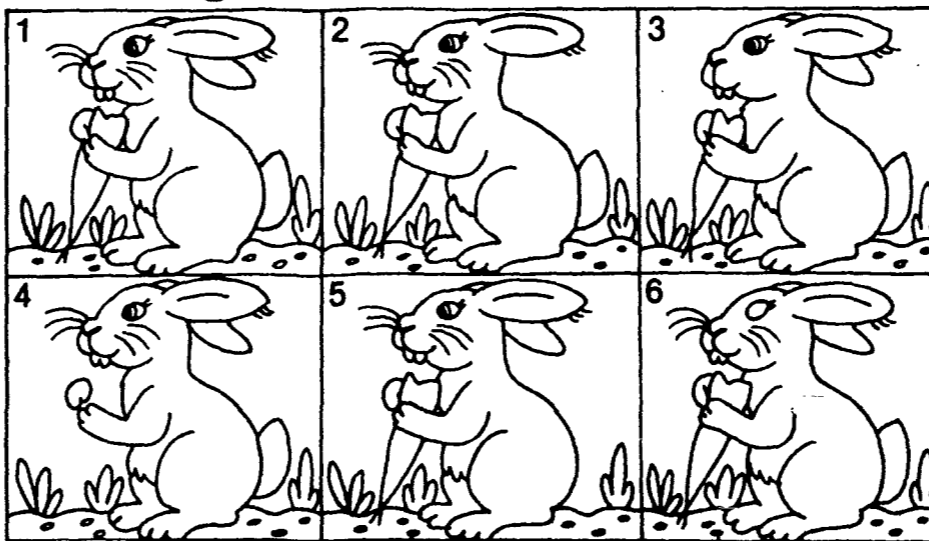

THE MOUNT GRAHAM RED SQUIRREL IS AN ENDANGERED MAMMAL. IT IS SMALLER THAN THE COMMON RED SQUIRREL. THIS SQUIRREL LIVES ONLY IN THE PINALENO MOUNTAINS IN SOUTHEASTERN ARIZONA. THE MOUNT GRAHAM RED SQUIRREL IS PROTECTED BY THE ENDANGERED SPECIES ACT, HOWEVER THERE IS STILL A THREAT TO ITS HABITAT. THE UNIVERSITY OF ARIZONA HAS PLANS TO BUILD MANY ASTRONOMY OBSERVATORIES IN THE PINALENO MOUNTAINS, INCLUDING THE MOUNT GRAHAM MOUNTAIN.

ASTRONOMERS BUILD THEIR OBSERVATORIES ON MOUNTAINS BECAUSE THEY CAN GET A BETTER VIEW OF THE STARS AWAY FROM CITY LIGHTS. CONSERVATIONISTS FEAR THAT BECAUSE OF THE ROADS AND BUILDINGS THAT WILL BE BUILT, ITS HABITAT COULD SEVERELY REDUCE THE NUMBER OF MOUNT GRAHAM RED SQUIRRELS. THERE HAVE BEEN SEVERAL COURT BATTLES THAT WILL DETERMINE THE FATE OF OUR ANIMAL FRIEND, THE MOUNT GRAHAM RED SQUIRREL.

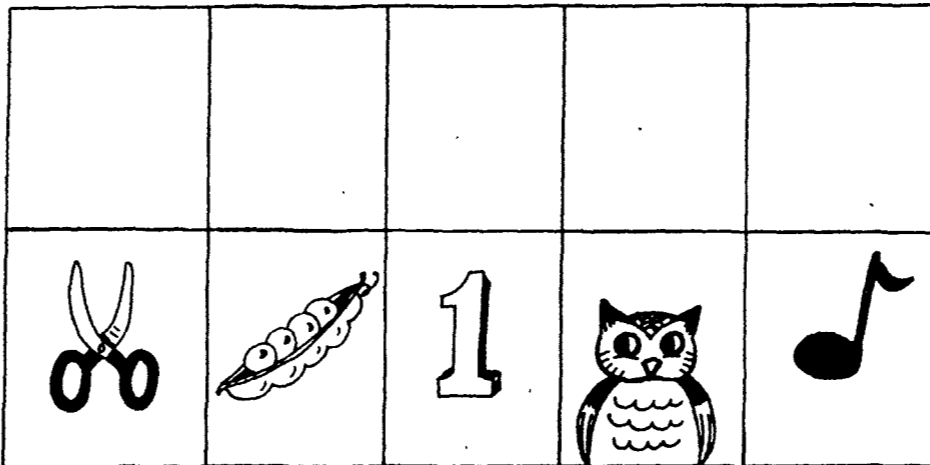

What's Missing?

Look at picture number 1. In each of the following pictures something is missing. Can you find it?

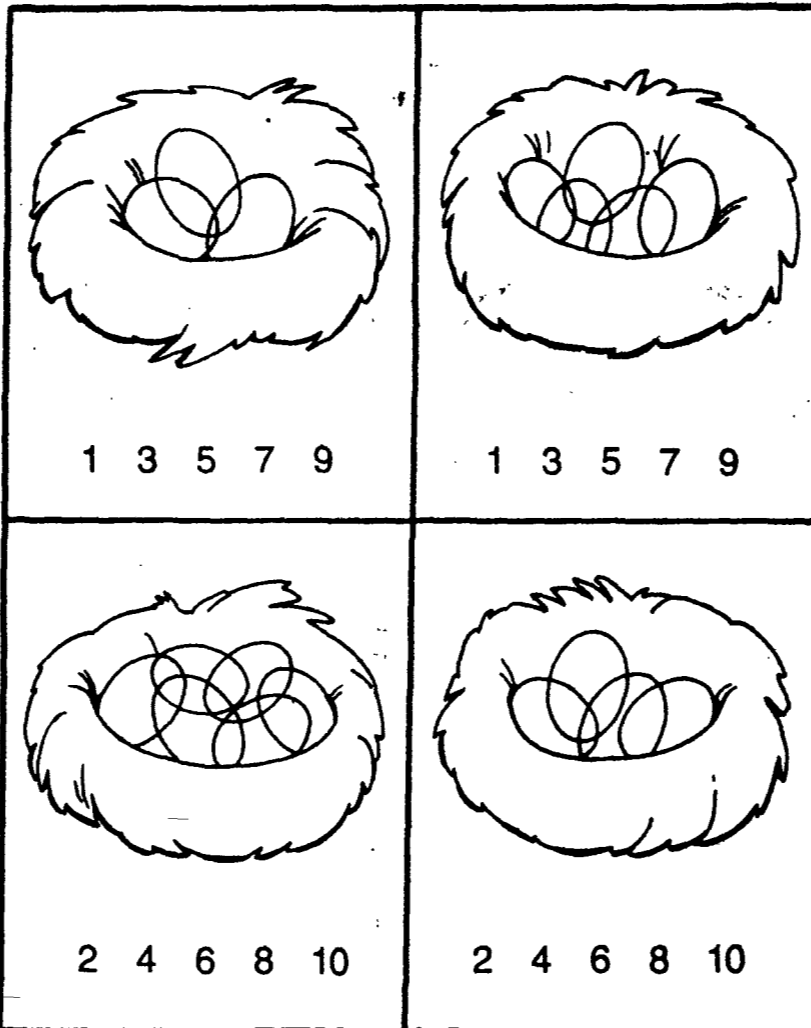

Mystery Word

What do you need to eat soup? Write the first letter of each picture in the square above to spell out the answer to the question.

Egg Count

Birds build nests to protect their eggs. Circle the number in each box that tells how many eggs are in the nest.

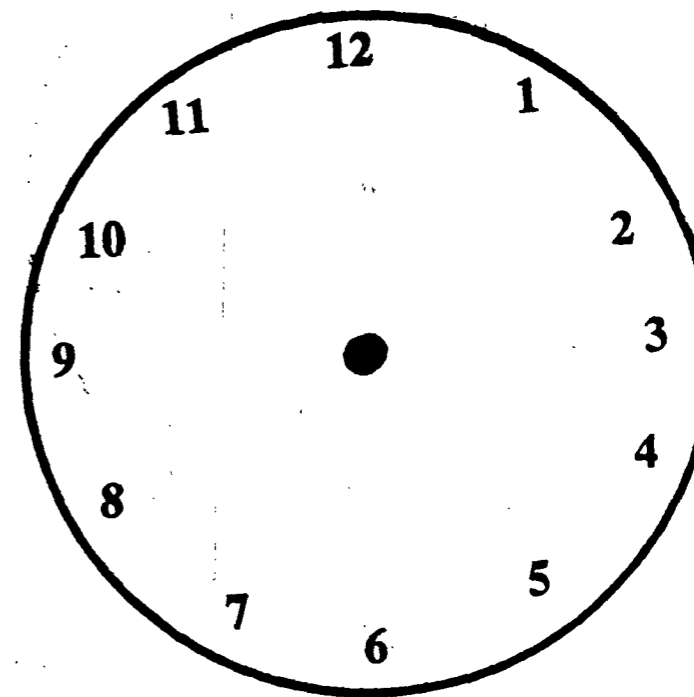

Heads and Tails

Which head belongs to which tail?

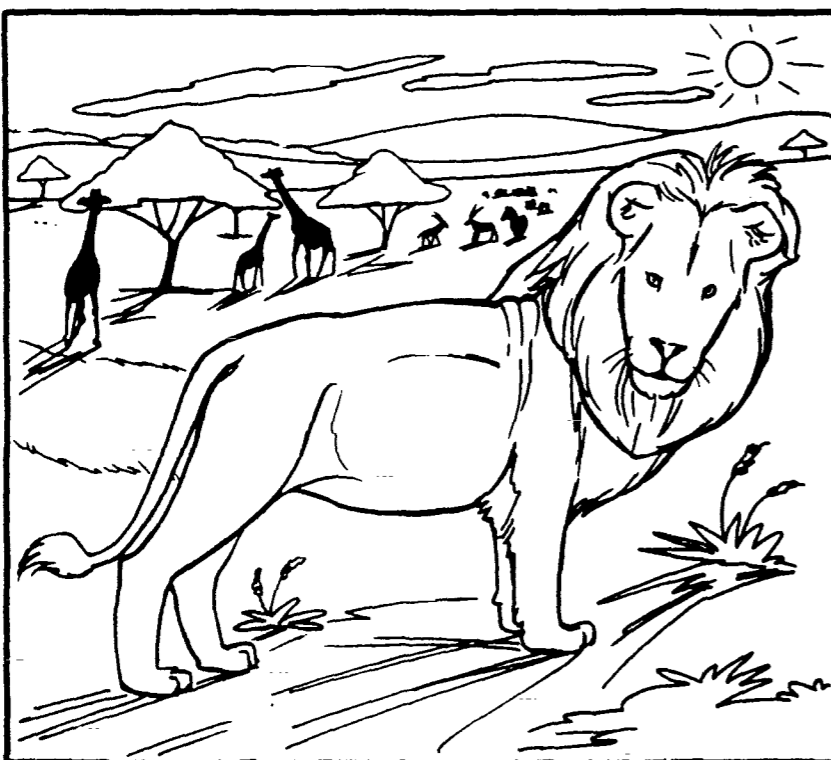

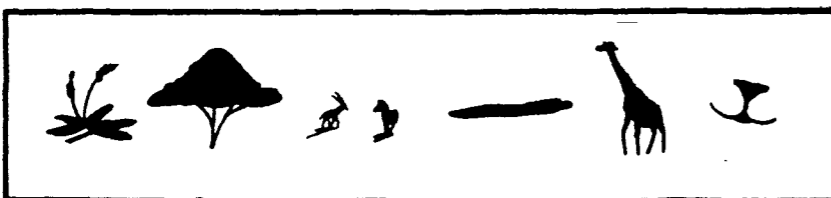

Answer: 1-B, 2-C, 3-D, 4-A

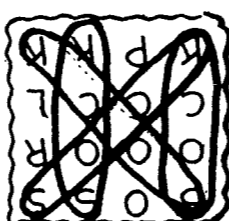

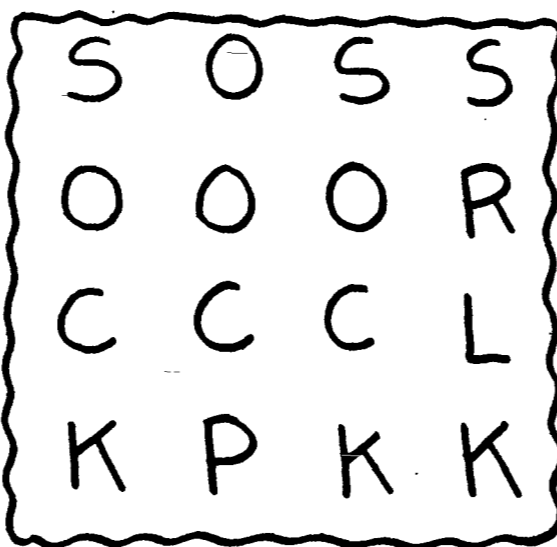

Draw the hands on the clock to show what time Sunday morning we will turn the clocks ahead.

Shadow Shape Find

The masai lion of Kenya lives in the sunny plains. Can you match these shadows to their shapes in the big picture below?

THE WORD SOCK APPEARS 4 TIMES IN THIS PUZZLE. FIND AND CIRCLE EACH WORD.

Follow the Dots

To see an animal that lives in the cold far North. His thick coat helps him withstand frigid weather.
