Skunk Maze!

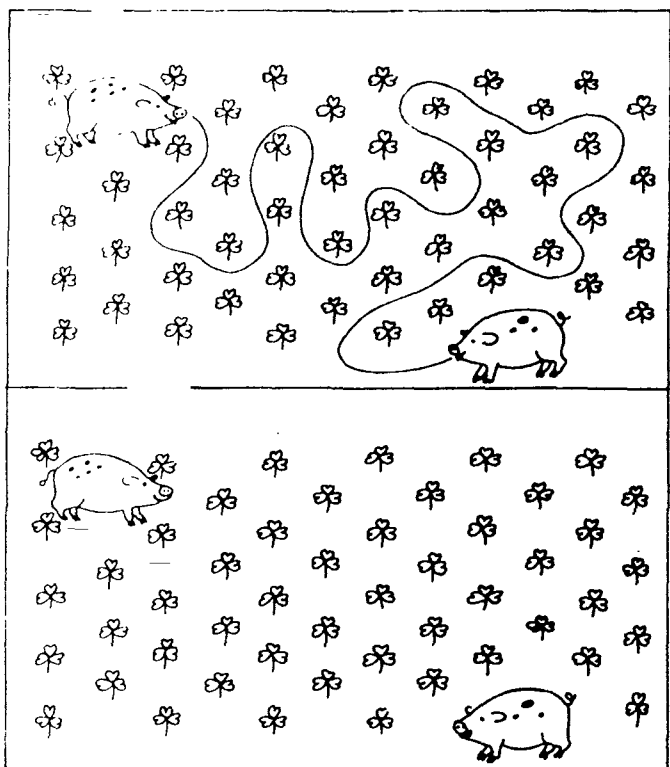

Skunks give off a powerful, unpleasant odor to protect themselves from enemies. Help this little skunk find his friends who are hiding in the bushes!

Color the rabbits with long ears pink. Color the rabbits with short ears brown.

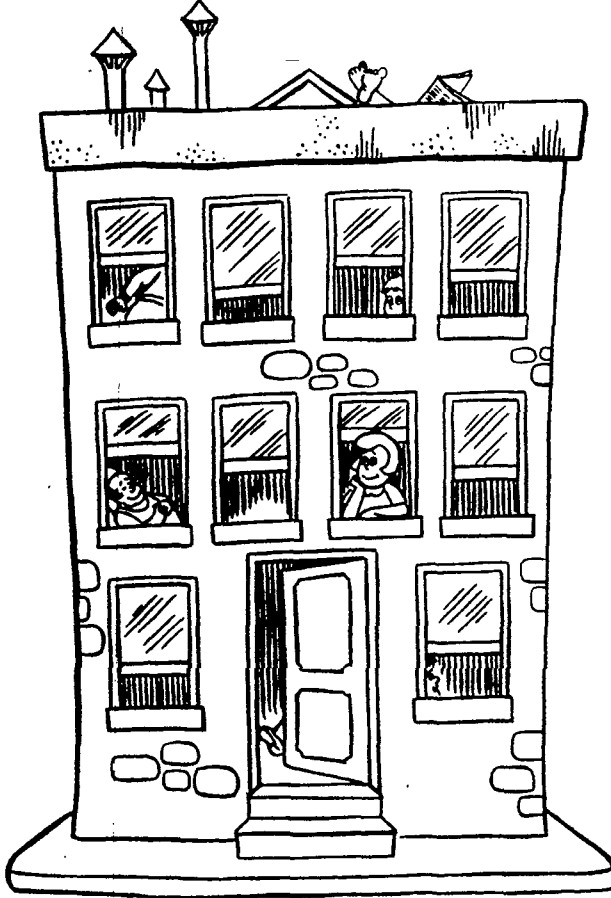

Look closely at the path between the pigs in the first box. Now take your pencil and trace the same path in the second box!

WHO'S HOME?

Can you find and circle the 7 people in this house?

ENDANGERED WILDLIFE

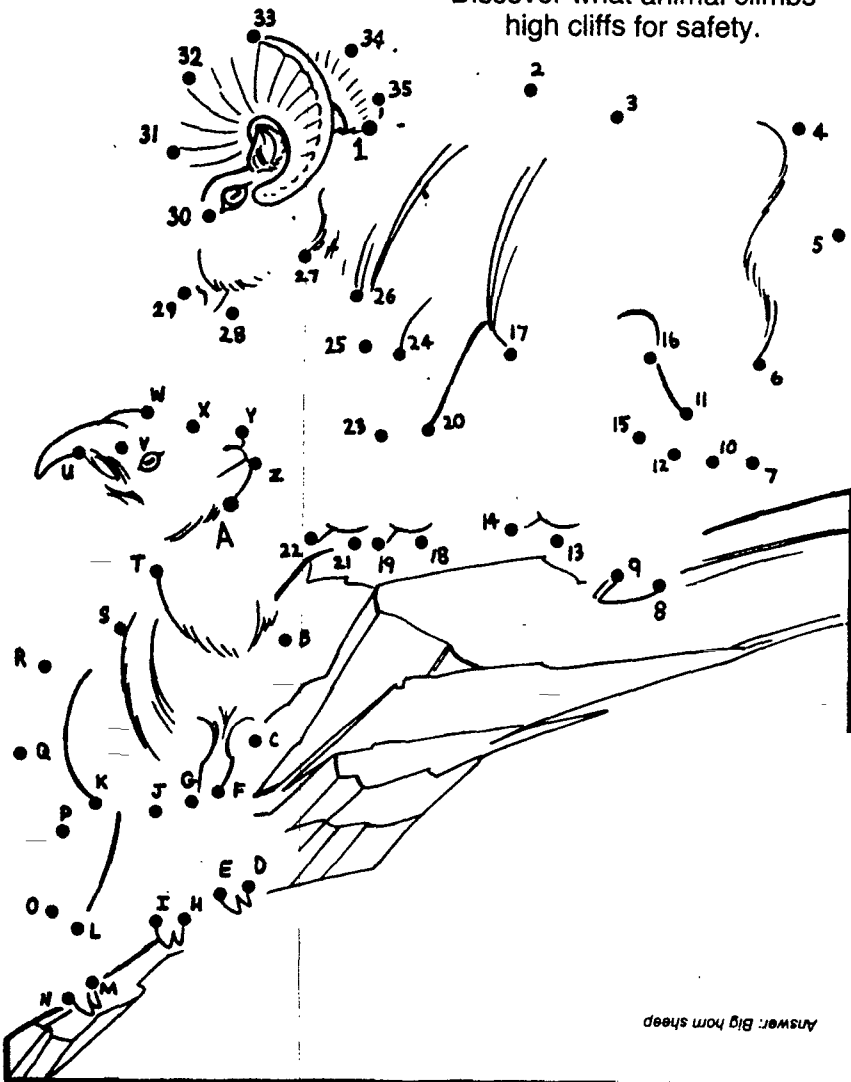

THE OCELOT IS A MEDIUM-SIZED CAT THAT HAS A TAN COAT MARKED WITH BLACK SPOTS AND STRIPES. FULL GROWN MALE OCELOTS CAN GROW UP TO FOUR FEET IN LENGTH AND CAN WEIGH UP TO 25 POUNDS. THESE BEAUTIFUL CATS LIVE MOSTLY IN SUBTROPICAL FORESTS BUT A FEW MAY LIVE IN SOUTHERN TEXAS. AGRICULTURE AND DEVELOPMENT AND ALL THAT COMES WITH IT, SUCH AS, LAND CLEARING, TRAFFIC AND POLLUTION CONTRIBUTES TO THE DESTRUCTION OF THE OCELOT'S HABITAT. IN SOUTHERN TEXAS ALONG

THE RIO GRANDE RIVER, THE OCELOT'S HABITAT HAS SERIOUSLY BEEN REDUCED. ALSO, BECAUSE OF THE GREAT BEAUTY OF THE OCELOT'S COAT THEY HAVE BEEN AND STILL ARE HUNTED. WHAT CAN YOU DO TO PROTECT OUR FRIEND THE OCELOT? DON'T PURCHASE ITEMS MADE FROM ITS FUR. YOU CAN ALSO WRITE TO A WILDLIFE PROTECTION AGENCY SUCH AS: THE ANIMAL WELFARE INSTITUTE, P.O. BOX 3650, WASHINGTON, D.C. 20007. ASK THEM ABOUT OTHER WAYS YOU CAN HELP PROTECT ENDANGERED WILDLIFE.

Follow the Dots

Discover what animal climbs high cliffs for safety.

4. WHO WON THE WRESTLEMANIA VIII HEAVYWEIGHT CHAMPIONSHIP? _____
5. WHAT WAS THE NAME OF THE BRADY BUNCH FAMILY DOG? _____

How does a fish breathe?

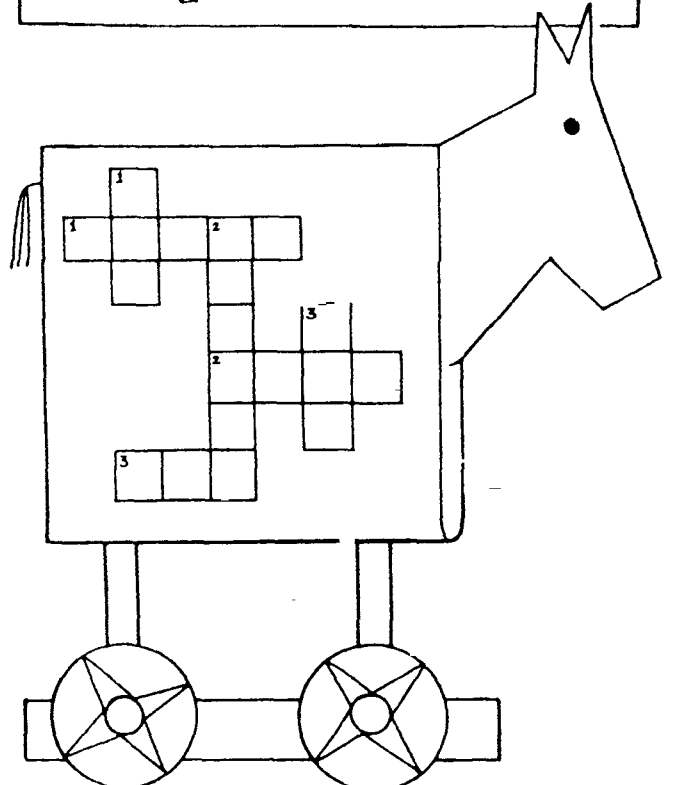

Well, a fish doesn't breathe like a mammal. But it does breathe through its gills. It takes in water through its mouth, which runs down the throat and over the gills and out again through slits behind the gill covers. This water has the oxygen the fish needs and which it extracts as it goes through.

Lamb Twins

Can you find two lambs that look exactly alike?
