

# LOCAL NEWS

GM, Cont'd from Front Page. the Mohawks from the "acceptance in the evaluation criteria", while including the NYSDEC.

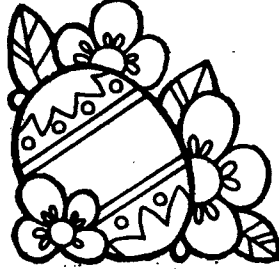

The Mohawks were told that EPA's policy is to not include the Tribe's concurrence or opposition in the proposed plan unless the remediation is located on Tribal property.

The Tribe is deeply concerned with the proposed plan because the GM site extends onto the St. Regis Mohawk Reservation, and has impacted its water, fish and wildlife resources as well as created a risk to its community members. The Tribe feels that it was flagrantly ignored in the process and is discussing these issues with the EPA.

The proposed plan will soon be open to public comment and public meetings will be held so that concerned community members can present their comments in person. The dates, times and locations

of these meetings and the availability of the proposed plan for review will be publicized soon. Further information can be obtained from: Lisa P. Jackson, Project Manager, Emergency and Remedial Response Division, U.S. Environmental Protection Agency, 26 Federal Plaza, Room 737, New York, NY

10278. You may also contact the St. Regis Mohawk Tribe, Environment Division, RR 1 Box 8A, Community Building, Hogansburg, NY 13655.
