Iohahi:io Course Announcement

In partnership with Carleton University
THE JUSTICE SYSTEM AND ABORIGINAL PEOPLE

This course is based on the premise that the justice system has failed Aboriginal people on a massive scale, and that it has been insensitive and inaccessible, and has arrested and imprisoned Aboriginal people in grossly disproportionate numbers. This course will analyze the criminal justice system and its treatment towards Aboriginal people in Canada. It also includes a multi-disciplinary and multi-cultural comparison, and a critical historical examination of racism in the justice system and its impact on Aboriginal people.

This half credit course will be completed on six (6) Fridays with the anticipated start date of Friday, April 28, 2000 and ending June 9, 2000. Applications can be picked up at Iohahi:io in Tsisnaihne, or if you have any questions please call Sheila Lafrance or Vincenette Cook at 575-2754.

DEADLINE FOR APPLICATIONS IS TUESDAY, APRIL 25, 2000.

PUBLIC NOTICE

The Mohawk Anti-Tax Steering Committee will again be open one Saturday per month on April 22, 200. These new office hours, which are 9:00am-1:00pm, once per month, will enable the community, specifically the ironworkers that travel home on weekends to be able to stop in the office and meet with staff. Next month's Saturday will be posted 2 weeks prior to the scheduled date

NOTICE

Have you had a traffic ticket in the last 18 months? Are you interested in receiving a 4 point reduction or a 10% insurance reduction on liability and collision? Then take the Defensive Driving Course being offered at the St. Regis Mohawk Tribal Building on Friday, May 19, 2000 from 9:00 - 4:00. The cost for the course is \$25.00. Seating is limited to the first 30 people to register. Refreshments will be served. Lunch is on your own. Participants must pre-register.

To register call: Lynne Thompson, Instructor, 518-358-3141 ext. 193 Monday-Friday between 8:00 am - 4:00 pm.

Kanatakon School News by Scott McMaster

Kanatakon Grade 7 & 8 student will be having a chocolate bar drive for the next week. The charge for one chocolate bar is \$2.00. All proceeds will go to the Grade 8 Graduation Committee. They make excellent "Easter" gifts (Hint! Hint!) Buy yours today!

There will be a \$5.00 a day on-going raffle for the students who sell them. The student who sells the most will win the choice of a bike or roller blades. Niawen.

Exceptional English Students in Grade Eight at Kanatakon.

The second semester has completed and various students in grade 8 at Kanatakon School have achieved an over 80 average in Language Arts. The following students have attained an over 80 average in Language Arts: Aronhiaheke Elijah, Kari Sharrow, Josh Mitchell and Craig Roundpoint. One student completed the term with a remarkable 92% average. She is the first grade 8 student this year to score over 90% in this course. Marlee Jock, attained an average of 92%. Way to go Marlee! Congratulations to the elite 5, and good luck to all students in the third semester.

K-4 School Registration

Registration for AMBE's K-4 programs will be held from April 24th to April 28th. You must bring in your child's birth certificate and immunization record.

Please contact the school in your district. The school secretary will provide you with more information.

Char Cook: 932-3366

Elaine Thompson: 575-2291

Florence Phillips: 575-2323.

Please note that your child must be 4 years of age on September 1st in order to be enrolled.

General Motors Corporation
 Central Foundry Division Superfund Site
 Massena, New York

The United States Environmental Protection Agency
 Announces a Proposed Explanation of Significant Differences
 for the Handling of Contaminated Materials Excavated
 from the Site's Inactive Lagoons

The U.S. Environmental Protection Agency's (EPA's) proposed Explanation of Significant Differences (ESD) calls for a change to specific aspects of the December 17, 1990 cleanup plan selected for the first Operable Unit (OU1) at the General Motors Corporation - Central Foundry Division Superfund Site (Site) in Massena, New York, St. Lawrence County.

The proposed change affects only the inactive lagoons at the Site and how materials excavated from those lagoons will be handled. EPA is not proposing changes to the cleanup levels established for the Site or the lagoons. The 1990 cleanup plan called for excavating materials contaminated with polychlorinated biphenyls (PCBs) greater than 10 parts per million (ppm) from the inactive lagoons, treating the excavated materials on-Site to reduce the PCB concentrations and disposing of the treatment residuals on-Site. Under this proposed ESD, all materials with PCB concentrations greater than 10 ppm would still be excavated from the inactive lagoons, however, the materials would then be solidified on-Site and shipped off-Site to a secure disposal facility. No treatment residuals would be disposed of on-Site.

If you would like to learn more about this proposed ESD and share with EPA any comments you may have, please join us:

Public Availability Session

April 26, 2000

3:00p.m.-7:00p.m.

Akwesasne Housing Authority
