NATIVE AMERICAN FISH & WILDLIFE SOCIETY
NATIVE AMERICAN ENVIRONMENTAL AWARENESS
SUMMER YOUTH PRACTICUM**

July 22 - August 1, 2000

Mt. Evans Outdoor Education Lab School
Evergreen, Colorado

The Native American Fish & Wildlife Society is proud to sponsor its tenth-national Native American Environmental Awareness Summer Youth Practicum, scheduled for July 22 - August 1, 2000, in Evergreen, Colorado. The Practicum is designed to provide Native American students an opportunity to gain hands-on experience in the management of natural resources. One of the goals of the Society is to encourage Native American youth to see the importance of professional natural resource management, to continue their education in order to seek degrees in natural resource management, and, ultimately, to pursue careers in the natural resource fields. The Society believes in a re-awakening of the traditional values of Indian-to-environment relationships that are needed for tribes to make effective and sound natural resource management decisions.

The program provides an academic experience in a mountain youth camp environment. During the program, students will spend their time at the Mt. Evans Outdoor Education Lab School of the Jefferson County School District participating in classroom sessions, field education, recreational activities, field trips, traditional methods, and, most important, interaction with professional, cultural and spiritual people. A unique aspect of the program is the use of Native American professionals who are active in the field and, even more important, the invaluable teachings from Tribal Elders.

The Youth Practicum is open to incoming 10-12th grade Native students who are interested in the preservation, protection, and enhancement of natural resources. Students must be in good physical condition as physical activities are a part of the Practicum.
