JAPANESE SUCCESSES

Advices From Manchuria Indicate Armies Are Fighting Extensive Engagement.

IT MAY BECOME GENERAL.

Attack Seems to Have Been Started by General Linevitch on Friday Morning—Losses Will Run Into the Thousands—Report That Russia May Seize Mongolia.

Tokyo, June 19.—Advices received from the Manchurian headquarters indicate that the two armies are fighting a rather extensive engagement and that since Friday morning the Japanese divisions have met with uniform success. The towns named in the several bulletins received show that the battle line extended from the north Liao river, on the extreme west of Mopanshan, sixty miles east, on the main road to Kirin. All the Japanese commands were fighting at some time between Friday and up to the period when the last bulletin arrived. There is every indication that the battle will become general.

The attack seems to have been made by General Linevitch on Friday morning about twenty miles northwest of Lukahoutun, which is the extreme right of his army, and later on the same day 5,000 of his cavalry, with a brigade of infantry and many guns, attacked the center Japanese army, while at night [illegible] the Japanese outposts on the right were attacked on the left wing of the Russians. The engagements have been severe and the losses will run into the thousands. The Great Inbred Wilkes Stallion,

MOLYN 31806,

Brown Horse by Allerton 2:09 1-4; Dam by Eagle Bird 2:21

In offering this young stallion, Molyn, for service to the public we offer one of the best bred young sons of Allerton in the country, he being four times bred to George Wilkes, twice through Allerton, grandson of George Wilkes and Nora, the second dam of Allerton, a daughter of George Wilkes, twice through Eagle Bird, record 2:21, sire of the dam of Molyn. Eagle Bird was sired by Jay Bird, son of George Wilkes, and Eagle Bird's dam, Tansey, was by George Wilkes. She is in the great brood mare list, being the dam of Eagle Bird 2:21 and Butterfly 2:19¾; the dam of Tansey was Dame Tansey, daughter of Daniel Lambert, who is also in the great brood mare list, being the dam of S. Busby 2:29¼, Marie Jansen 2:21¾, Prima Donna 2:09¾, and grandam of 4, Banquet 2:24, Castalia 2:22½, Butterfly 2:19¾, Eagle Bird 2:21.

Molyn's dam, Lida Bowman, is a daughter of Mary, dam of Cristo Queen 2:11¾. If you read this pedigree you will see that Molyn is not only fashionably bred, but also bred in extreme producing lines. It is admitted by all breeders and fair minded men that a double infusion of any great producing family, when coming from both sides of the house, as it does in Molyn's pedigree from the greatest of all producing families George Wilkes to be worth double what it would be if it only came from the sire's side. And above all other things that is to be looked for in a young stallion is producing dams and those close up of extreme speed.

Molyn is fifteen hands, two and one-half inches high, weighs 1100 lbs., is nice gaited and can show you any day that he is a trotter. He will make the season of 1905 at the Fair Grounds, Potsdam, N. Y., at $15 payable at service with money or note, with the right to return mare until you get a living colt.

Will stand for the Season of 1905 at the

FAIR GROUND BARN, POTSDAM,

TERMS: **$15.00** with right to return mare until a living foal is secured.

ELIAL D.

Elial D. has all that is required of a successful sire in the production of the light harness horse, viz: Good individuality and good breeding. Can produce his kind with great uniformity and his for opportunity a perfect gait and great speed. He is a Dark Dapple Chestnut, star in forehead, two hind white ankles, stands 16 hands high, weighs 1,125 pounds, with perfect conformation, symetry of form and great docility. He has proved a winner no matter where shown. His sire, Elial G., has produced more trotters than any other horse that ever stood for service in this county and his sons are breeding on so wonderfully that he will always remain as he now is, the best son of the almighty Aberdeen. **Elial D.** is as well bred on his dam's side, she being the dam of Brown Nell 2:28 (trial 2:10), and she was a daughter of Hercules, a son of Garabaldi and out of a daughter of Mambrino Chief. This shows him to be an inbred Hambletonian, crossed with Mambrino and through the very best stock that came from the loins of the Old Hero of Chester.
