—Edith Townsend, only daughter of the Rev. C. C. Townsend, President of Folts Institute, Herkimer, formerly Presiding Elder of the St. Lawrence District, and well known here, has been for over 14 months a sufferer from a dangerous fall on a slippery sidewalk. In that time she has been in three hospitals and in St. Lawrence. The best experts and specialists have worked on her case which was called obscure and baffling. We are now glad to say all danger is over and she is on the road to complete recovery, although it will be some time before she can walk well.

—The friends of Mr. H. M. Ingram learned with regret last week of the death of his father, Mr. James J. Ingram in Ogdensburg. He resided about two years in Free Masonry and was formerly fire chief of that city. He is survived by his widow, one daughter, Mrs. Fred Coombs of Alexandria Bay, and three sons, Harry M. Ingram of Potsdam and William D. and Charles D. Ingram of Ogdensburg.

Sheehan and Ethan Parker for 2 years, Frank Haplin and George O'Connell for 1 year. The proposition to build and equip a factory to take care of the milk was discussed, and the directors were authorized to look up a site and make an estimate of the cost of a complete factory. The members are enthusiastic over the successful organization of the League, and anticipate material financial benefits from co-operation.

—Mr. A. D. Heath completed the sale of his clothing store to Mr. Earl W. Floyd and Mr. A. H. Morgan last Saturday. This store was established in 1877, and during the past quarter of a century has acquired an enviable reputation for the excellence of its dealings and the squareness of its dealing. Mr. Floyd has been chief salesman for a number of years and is thoroughly equipped with a knowledge of the clothing business. Mr. Morgan is a young man of considerable business experience, and under the progressive and capable management of the new firm of Floyd & Morgan the reputation of the store will be maintained and a large business developed.

—Mrs. Samuel Eastman of Hopkinton visited friends in Potsdam last week and attended the fortnightly lecture Wednesday eve.

—Mrs. Frank Samson drove to Winthrop one day last week and her friend Miss Buck returned home with her for a visit at the Samson farm.

—Merrill McGaw and wife of Lisbon Center spent Saturday and Sunday with Dennis Griffin and family. It has been twenty-four years since Mrs. McGaw visited this section last.

—Lawrence Riley of Parishville visited his aunt Mrs. Orion Hill on the Hopkinton road last week. Mrs. Jay Seaver spent Saturday at her mother's Mrs. Hill.

—The young ladies who room at Mrs. Lewis Bixby's on Pierrepont Ave. spent Saturday and Sunday with their friend Miss Giffin near Eben and report a fine time.

—Wm. E. Austin who resides on the Hopkinton road has a number of pure bred Holstein bull calves nicely marked which he will sell at reasonable prices.

—Mr. Lindley the genial agent for the DeLaval separator, has placed a number of these wonderful institutions among the farmers the past week. Mr. John Harrington, Wm. Burkett and John O'Leary who live a few miles from Potsdam are among the number.

—The Progressive party is growing in Potsdam, a young son arrived at the home of Mr. and Mrs. W. O. Daniels on Waverly St. March 1st. We hope when the young man really gets his eyes open he and the father will return to the G. O. P.

—Mrs. Henry Weston had a "hard" experience on Monday last. It being a cold day she was at home alone with her little four year old daughter. Mrs. Weston went into the woodshed after some wood, the pile began to fall when she was getting the wood and she was pinned in so tightly she had to stay there for three hours. She called for help so long she became hoarse and could not speak aloud. Mr. Kellam was passing and heard the noise and helped her out. She was chilled and so bruised by the wood falling on her, that she was sick for a few days in bed. A warning to all people getting wood out of their shed to look out.

—On another page will be found an interesting report of the Water Department, showing the work done in the past year and its cost. The Department is now in excellent financial condition, and many improvements have been made in the Water System. There is still however considerable work to be done to make the system meet the village needs, and one of the necessary things is a standpipe. A proposition will be submitted at the coming election authorizing the erection of a suitable standpipe, and as the entire cost will be paid out of the earnings of the Department, it ought to receive unanimous support.

—At his home on Leroy Street last Wednesday Gen. E. A. Merritt celebrated his 85th birthday with a dinner attended by several of his comrades in the civil war. Coming to Potsdam sixty years ago, when the town was in a warlike state, he has exerted a marked influence on its progress and development. And in state and national affairs as well his has been the part, not of the spectator but of the active doer of things worth while. And today still vigorous and active and interested despite his more than four score years, he is receiving the congratulations of a very wide circle of friends and the hope that many more years of enjoyment may be his. It may well be doubted whether the present generation can develop many men of the vigor, strength and usefulness of Gen. Merritt.

—Frank M. William of Watertown, for several years a member of the Tech Faculty, delivered a lecture in Kingston, Ont., Friday, at Queens University before the members of the Society of Chemical Industry on "Some of the Features of the Manufacture of Sulphite Pulp." Within a few days Mr. Williams will make a trip to South Carolina for the Cypress Lumber company. Mr. Williams was retained by this concern some time ago to devise a chemical process, which would prevent mildew and rot stain of southern woods, making them available for the market at a low price, although previously they were not regarded as first-class woods. Mr. Williams has already visited the plant of this concern several times and will remain there about two weeks on the trip which he is now about to make.

—Rev. and Mrs. R. B. Whitman are rejoicing over the birth of a daughter.

—Miss Maggie Leary is in New York attending the Dressmakers' Convention.

—Mrs. Rockwood of Bombay spent the past week in town visiting her sister Mrs. Osborn.

—Mr. Robert Kerr is quite poorly and has been confined to his bed for the past four weeks.

—Dr. Maurice D. Barnett left for Rochester last week where he began his work March 1st as surgeon in the Rochester General Hospital.

—Mrs. Chas. Breese of Sanfordville spent last week with Mrs. Frank Chase at West Stockholm. Mrs. Chase who has been quite ill is convalescing.

—There will be a meeting of Racket River Lodge No. 213 F. & A. M. on Thursday evening March 6 at 7:30. The third degree will be worked.

—Morrill Baxter sold his property on lower Pine St. to Mr. Blackmon, consideration \$2500 and has moved to Hannawa on a farm owned by Mr. Blackmon.

—The West Side regret to have the Keegan family go to their home on Leroy St. Mr. Peter Keegan purchased the Parker farm last year it will be remembered, and they have been on the Clarkson farm the past ten years.

—Miss Elizabeth Clarkson has a way of always remembering the people in Potsdam. A pleasure to many is the photograph she had taken on New Year's day amid a shower of flowers sent her from her Potsdam grown house.

—The class of boys at the Methodist Sunday School who are under Prof. Miner's direction, treated themselves to a sleighride Saturday evening. There were sixteen in the party, and they drove out to Norwood, where they spent some little time, returning home about 11:30. They report an enjoyable time.

—The Potsdam Garage has contracted for 15 Studebaker cars. They have already sold 10 of them; 5 to Mr. B. B. Culey of Massena and 5 to Sital & Marick of Ogdensburg. They expect a carload some time in March. They have also taken the agency for the International Truck. Mr. Gregg has looked the trucks over at Syracuse and he thinks they are the best truck on the market for this part of the country. They expect a carload soon.

—Companion Court Peace and Court Potsdam, Independent Order of Foresters held a class initiation on Friday eve Feb. 28 when eight candidates were introduced into the mysteries of the Forest, as exemplified by this order. The floor work was put on by the degree team of Companion Court Peace, and to say that it was well done is certainly putting it mildly. "They surely are to be congratulated upon the efficient manner in which the several members did their respective parts," is the language of one who witnessed the work.

—The Moral Leaders' Section of the Fortnightly Club will hold its regular meeting Monday eve March 4 at the home of Prof. and Mrs. L. K. Russell, Lawrence Ave. The work on Martin Luther will be continued. The only paper of the evening will be given by Rev. D. L. Fisher, who will also have charge of the discussion. The subjects to be particularly considered are "Divided Germany—Theological Contention," "Luther's Death," "Summary of Luther's Efforts." The ladies of the section are invited to meet with Miss Thompson, Leroy St., Wednesday afternoon, March 5, for reading.

—William H. Lewis, one of Canton's foremost citizens, died at his residence on Goodrich street Thursday night, after an illness of some months. Mr. Lewis was born in Russell, but spent many years of his life in the town of Potsdam, moving to Canton village several years ago. He was a senior member of the firm of W. H. Lewis & Son, who dealt in dairy products, and was interested in several factories and receivers. Mr. Lewis had served as Supervisor of the town of Russell, and had on several occasions headed the Democratic village ticket, and once or twice come very close to election. He was between 60 and 70 years of age, and is survived by a widow and one son. Death resulted from cancer.

—We print elsewhere a list of propositions submitted by the Board of Trustees. The proposition to raise by bonding the village, the sum of \$18,000 for the purpose of erecting a standpipe, is a mere matter of form, since the taxpayers of the village will never be called on to pay one cent of either the principal or interest of these bonds. This proposition was presented by the Board of Water Commissioners to the Board of Trustees and approved by the latter. The funds arising from the earnings of the Water Works will take care of the interest on the proposed bonds, and also retire the bonds as they become due. With this explanation there seems to be no reason why the voters should not authorize the Water Board to use the earnings to construct a standpipe. The Water Board will later put before the voters the reasons for requesting authority to erect this standpipe.
