Merritt, Jr. of the New York Assembly that was, Congressman Edwin A. Merritt, Jr. of Potsdam, N. Y., that Mr. Merritt hasn't entirely caught the holiday spirit. "No," he said, when he was approached at the New Willard about his general lack of conviviality, "I've got to confess that I'm not in the company that I would have picked here. Besides, I've been feeling a lot out of place. I'd got so used to Albany that I can't think about getting settled down in any other quarters. I've felt like a stranger, a whole lot, coming down to this place, but I'm getting used to it. I guess I'll have to get acclimated."

He is survived by his wife, the daughter and two sons, one of whom, William Hoadley, is in the government service in the Philippines, having been for many years a resident of Kansas before going there. The cause of his death was a complication of diseases that finally resulted in pneumonia. The deceased had been in apparent good health until a few town election. He was a hard working man, having conducted a farm the greater part of his life at West Potsdam. At the age of 94 he was often seen sawing wood lengthwise, he being unable to split the wood, after having saved it up. Funeral services will be held Saturday at the home of Mrs. Leonard.

The Norwood Casket Co. reports that it is now doing the best business in its history. It has now three departments, the wood work, finishing and collar departments, employing 13 men and women, with a weekly payroll of \$125. The collar department is a new department, devoted to the manufacture of waterproof linen collars, named the "Norwood." This collar is light, flexible, has a patented fastener and bears a very close resemblance to the fine linen collars. The company expects to work up a large trade in them. Mr. H. M. Kinsman is President, F. L. Smith, Treasurer, and H. M. Farmer, Secretary of the company.

On Saturday afternoon there passed away from our midst a life long resident of this vicinity in the person of Mr. Charles T. French, who was born July 28, 1833, on the farm on which he had always lived and died, known in the early days as the half-way house to Canton.

In religion, Mr. French was a Methodist, and his consistent life of 79 years and upwards was spent in doing good. He was well known in this community as a man of strict integrity and his counsel and advice were often sought by his friends and neighbors.

He had long held an official position on the Board of Trustees of the Methodist Episcopal Church, and will be greatly missed by that congregation. The funeral services were held yesterday at 2 p. m. at the house, Rev. S. T. Dibble officiating.

Further particulars will appear in next week's issue.

There are big areas of waste land that might be profitably planted as trees and there is no safer investment that a man can make to leave to his children than an investment in trees. Other forms of investment may lose in value or fail utterly, but with every passing year the trees he has planted grow in value. It is a wonder that more owners of land do not reforest sections that are now of little value. The article we published recently on food bearing trees such as fruits and nuts, contained ideas which if adopted would be of immense benefit to the generations to follow.

There is one tree crop in this State that is already a rich one, and that is the sugar maple. In the northern part of New York State the forest growth is often almost pure maple and farther south where beech and birch become associate trees, the sugar maple holds its own as the dominant species. New York produces about \$1,340,684 of maple sugar and syrup yearly, being the leading state.
