CLARKSON WINS ANOTHER.

Put Up Splendid Game Against New Hampshire.

In a game in which Clarkson showed to splendid advantage, the local basketball five defeated New Hampshire State 34 to 14 last Thursday evening. Clarkson's line-up was weakened by the absence of Maley and West, but in spite of that fact the team played a strong, consistent game from start to finish—one of the best of the season. Clarkson secured a good lead early in the first half and held it throughout, the score being 7 to 21 at the close of the first period. There was a few moments of fast team work at the opening of the game before Barclay landed the first basket for Clarkson. Thompson got one for New Hampshire immediately after. Tehan followed with another and Thompson got a second for his side. Barclay shot two fouls after which Jacot made a beautiful basket, dropping the ball cleanly through the net from the center of the field. Reynolds started something right there by four points from two goals in quick succession. Jacot repeated the performance after Thompson had shot a foul for the visitor. Three fouls were registered in the next few moments, two from Thompson and one from Barclay. Tehan got another basket and Reynolds scored the last one of the half some time later.

Lacey went in in Tehan's place at the opening of the second period. Thompson got a basket and Barclay a foul. Price, New Hampshire's center, landed the ball for two points. Spear contributed two more, followed by Jacot and Reynolds. Thompson got a basket for New Hampshire. Barclay and he each secured a foul apiece. The former landed another basket. Morrison went in for Lacey and got the last basket of the game. Following is the summary:

Clarkson—Barclay 7, f. Tehan 1, f. Spear 2, Reynolds 1, g. Jacot 1, f. New Hampshire—Bissel 1, f. Thompson 1, f. Price 1, Brown 1, g. Hazen 1, g.

Goals—Thompson 4, Price 1, Barclay 2, Tehan 2, Spear 1, Reynolds 4, Jacot 1, Morrison 1.

Fouls—Barclay 6, Thompson 4.

Referee—Sisson.

TRIPLE ACCIDENT AT PAPER MILL.

Two Men Scalded By Fall Into The Elevator Pit.

Patrick Carbone, Charles Klimburg, and William Folsa, all employed at the Unionville mills of the Racquette River Paper Co., were injured in a series of accidents at the plant Thursday morning of last week. Klimburg and Folsa were severely burned. Carbone got off with a few minor bruises. The men were at work in the cellar of the sulphite plant. Klimburg was wheeling a load of pulp. In some manner he and the load got into a pit at the bottom of an elevator shaft. The elevator is operated by steam and the pit was full of boiling water. Klimburg shouted for help and Folsa heard him and went to his assistance. Not realizing the condition of affairs in the pit he jumped in and found himself in trouble too. Carbone went to the aid of the other men, when someone started the elevator down and he was caught under it and slightly bruised. The other men were helped out of the pit and were attended by Dr. C. A. Barnett of this village and Dr. J. W. Kilsane of Newwood. They were taken to the hospital, getting their money for time from the Hannawa circuit. It operated better but there still seemed to be an opinion that it was not found enough. The whistle was blown again last evening.

A member of the board of trustees stated yesterday that the board probably would not keep the whistle. They have another apparatus in view which they may investigate before making a purchase.

Optician E. L. Wheeler will be at the Albion House Thursday Feb. 18. 37w1

EASTER APRIL 4

DRY CLEANING SERVICE

There was a time when many tailor shops hung out a sign "dry cleaning" and advertised a service they were not in position to render.

"Dry Cleaning" to-day, means equipment, experience, service, something far more than a sad iron and sponge cloth wrung from a pail of dirty water.

TIMMERMAN'S SCIENTIFIC DRY CLEANING is sanitary, it means the removal of sugar, egg, blood, albumen, coffee and milk stains, stains that formerly put a delicate fabric beyond further wear.

With Easter April 4th, send your dry cleaning now. Even a part of a dress that you are making over, may be dry cleaned.
