WEDNESDAY AUGUST 7, 1918

SAVING AND SERVING.

By economizing in consumption and with the resultant saving purchased by the Government's securities the American citizen performs a double duty. The citizen and the Government can not use the same labor and material; if the citizen uses it, the material and labor cannot be used by the Government. If the citizen economizes in consumption, so much material and labor and transportation space is left free for Government uses. And when the saving effected is lent to the Government more men are placed at the disposal of the Government.

The more the people save the more money, labor and materials are left for the winning of the war, the greater and more complete the support given to our fighting men.

DID NOT BORROW FOR BONDS.

The Federal Reserve Bulletin says that one of the most encouraging and gratifying features of the Third Liberty Loan is that apparently there has been little use of bank accommodations for the purchase of the bonds. It estimates that probably more than 80 per cent. of the bonds are already fully paid for.

The financial statements of the various Federal Reserve banks indicate that not much borrowing from the banks was done by the subscribers to the Third Loan. They either paid cash or bought on the installment plan.

This eases a great deal the burden of the banks, upon whose shoulders rests the financing of the business and industry of the country.

MUST HAVE SUGAR CARDS.

Hereafter everybody who wants to purchase sugar must present a card to the dealer and have it punched before they can carry away any sweetening. And this applies to all kinds, brown, granulated or cube. The allowance has been reduced to two pounds per month a person.

Food Administrator Fison has ordered a supply of cards and they will be ready for issuance very soon.

Meanwhile it will be a good plan for everyone to figure on how much sugar they can cut out of their daily ration, and look up the various honey and corn syrup substitutes.

NEW DRAFT SUGGESTIONS.

Will Include Men From 18 To 45 Years of Age.

The new administration man now being extended the selective service act to all men between the ages of 18 and 45 inclusive, and authorizing the President to call such persons into military service "in such sequence of ages and at such times" as he may prescribe, has been introduced in both Houses of Congress.

The measure, which was prepared by Secretary Baker with the approval of the President and Provost Marshal General Crowder, was referred to the military committees. Congressional leaders plan to have the measure considered soon after the summer recess period is over, the last of this month. While Senate leaders admit there may be some opposition, they hope that it will finally be passed by Sept. 1.

Between the ages of 32 and 45 General Crowder estimated there are 10,028,978 males, but taking into consideration those married or who would be subject to deferred classification because of physical conditions or other reasons, he estimates the "net effective" at 6,011,225. Between 18 and 20 he estimates the number of males at 3,171,671, of which the "net effective" would total 1,797,009.

Provost Marshal General Crowder has suggested Sept. 5 as the date for a national registration of men within the proposed new ages.

Weekly registration of youths attaining the age of 21 during the next few weeks was proposed by General Crowder as the only means of obtaining the 2,000,000 men to be called to the color in September. This could be done by non-identical proclamation and would add about 80,000 to the number of men available.

RESIGNS FROM RED CROSS.

Captain Grant C. Mallin of Ogdensburg, who was ordered to report at Acetlink, Va., during the past week, has tendered his resignation as chairman of the St. Lawrence Co. Red Cross.

ENJOYS LIFE IN FRANCE

PARISHVILLE BOY IS NEAR BATTLE FRONT.

Can See The Flash of Big Guns At Night.

Corporal Arquit, a Parishville boy in France, writes as follows:

"This is a very hot day and I am lying in the shade beside a small brook at the foot of a mountain, using my gas mask for a writing desk although it is not large enough to make a very good one. Just at present we are resting—and are billeted in a fine place, small but very pleasant. There are mountains on three sides of us and a river or a large brook in front and there is a town nearby where we can buy tobacco and other things as we need them. We are well cared for as regards food. Today for dinner we had cabbage, fried onions and bread, gravy and potatoes. Not so bad for field soldiers. This is 3 times we have had steak in less than two weeks.

"We can hear the guns roar and at night see the flashes, for we are about as far from the line as from home to the village and have been closer than that. It seems like the Fourth of July all the time. We have had only ten killed and 20 wounded since we came over and that is not so bad considering.

There is little I can write about the war, for the people in the states know more than we soldiers do about the results. We make the charges and look out for no one. Everything is high here. Canned food is 4 francs 5 pence, 32 cents.

"The second day we were in this country I ran across Bill Plantz from home and he is in my regiment but in another company. I saw him about 15 minutes and did not see him again until a week ago. Have lost track of him again, but if he is still here will see him again.

"Wrote Bernice last night and had only two letters from her, but had a long letter from Aunt Nora in Colorado and believe me it was fine. There is nothing that we need here as we have plenty of everything or can get it from the commissary and we can get it for less than what we had to pay for it in the states.

"Some of the boys are just back from the front and they say things are fine. I think we will be trying it again within a night or two. They are having over here now and use mostly oxen instead of horses. Not that they are not good horses but because they are not as far advanced in farming as we are. They farm it on a very small scale and not for profit as we do. Crows look fine and are well cared for. We are not restricted as to the number of letters we write and the in coming mail is not censored.

"Well, I shall have to close and tend to business. You know if the guns are rusty someone gets a few hours exercise in the line of work or the woodpile—maybe digging a hole of some sort. Hoping everyone is well will close. Will write again Sunday if the army doesn't move three or four times between now and then. Send mail same as ever."

LAWRENCEVILLE.

Mrs. Helen Claffin left last week for Cleveland, Ohio, to spend a few weeks with her son Harry.

Mrs. Mary Weekes spent last week in Nicholsonville.
