**ALL-STAR LINE-UP FOR '51!**

Standard equipment, accessories and trim illustrated are subject to change without notice.

*Your first eye-smacking look at the line of lovelies pictured here tells you that they've got what it takes in visual charm.*

*But the fellow who said a picture speaks louder than a thousand words wasn't talking about these superbly able 1951 Buicks.*

*Sure, they're smart to look at—smart in style and smart in dress.*

*But they're also smartly powered—smartly engineered—smartly priced. And it would take a book to describe in full their deep-down goodness.*

What's been done for '51 is to take the best automobiles that ever bore the Buick name—and top them.

Come, look them over, and you'll see what we mean.

There's the SPECIAL which can accurately be titled "the newest car in the world"—new in structure, new in power, new in dimensions, new in thrift—and potent in price appeal.

There's the SUPER—that looks and is a smart new edition of its "best seller" forebear.

Then there's the ROADMASTER—that coddles your anatomy on luxurious new fabrics and cloud-soft cushions—pampers your pride with its lordly bearing—shoots a delicious tingle right up your spine by the exuberance of its power and action.

We could go on and on. This is the car that "breathes through its nose." This is the car that sports a brand-new front-end styling. This is the car with new high-visibility instrument dials, more easily read at night. This is the car with glare-and-heat-reducing glass† and a host of other news-making features you can't afford to miss.

So your No. 1 date this week end is with your Buick dealer. It won't take you long to conclude that he's offering the smartest buys of the year.

†*Optional at extra cost—available on most models. (Not presently available in California or Massachusetts)*
