800 FARMERS SAVED AMERICA. Led by brave General Herkimer, at the Battle of Oriskany in 1777, Mohawk Valley men suffered heavy losses, but stopped the Redcoats in their drive on Albany. The hardworking descendants of these Upstate farmers have made New York one of the nation's richest, most progressive farm states. Electricity, which farmers adopted in 1899, and which is now supplied by Niagara Mohawk, has helped mightily in the job.

"HEY! WHO USED UP ALL THE HOT WATER?" Today's modern family uses more hot water than ever before! A modern automatic water heater, run on Niagara Mohawk electricity will assure you of a constant supply for all the household needs. And it's economical, too. While the price of everything else has gone up, up, up, Niagara Mohawk electricity remains one of the biggest bargains you can buy.
