Free Cancer Tests Offered

(from page one)
 York State Division, Inc. of the American Cancer Society to the St. Lawrence County Unit of the Cancer Society.
 In the event that there is any woman in the county who desires to avail herself of this test, but feels unable to do so because she cannot afford the cost of an office call to her family physician and is not, nor does she expect to be, admitted to a hospital, she may communicate with Dr. Carson by letter and arrangements will be made for the test to be taken free of charge with assurance that both the letter and the arrangements will remain confidential.

The organizations co-operating in this ambitious, but worthwhile program are locally the St. Lawrence County Unit of the Cancer Society, the Medical Society of the County of St. Lawrence, the St. Lawrence County Laboratory, the A. Barton Hepburn Hospital Laboratory, the Board of Managers of St. Lawrence County Laboratory, the Board of Supervisors of St. Lawrence County, the Directors, Medical Staffs and Trustees of the following county hospitals: A. Barton Hepburn Hospital, Ogdensburg; Massena Memorial Hospital; Edward J. Noble Hospital, Gouverneur; Edward J. Noble Hospital, Canton; Clifton-Fine Hospital, Star Lake; and Potsdam Hospital.

Groups Involved
 Co-operating and sponsoring organizations on the state level are the New York State Health Department, under the direction of Vincent Handy, M.D., director of Cancer Control; the New York State Division, Inc., of the American Cancer Society through Alan Stevenson, executive director; and the Medical Society of the State of New York through its Sub-committee on Cancer, Charles D. Sherman, M.D., Rochester, chairman. Locally the committee of the Medical Society of the County of St. Lawrence and also that of the St. Lawrence Unit of the Cancer Society is under the chairmanship of Stuart Winning, M.D., of Ogdensburg.

It was announced that although there was considerable time and work necessary, all preparations are ready to start the program tomorrow and all the sponsoring organizations have signified their willingness to actively participate in this program, and every effort has been made to provide for any contingency. This is the first time any such elaborate, well organized program has been offered to a geographical area the size of St. Lawrence County or to an area which is essentially rural in character. Naturally, the local committee's first interest is to work to the end that every adult woman in the county has such a test during the coming year, but secondly, the groups would like to demonstrate that such a co-operative, organized program can be effective in a rural area, even though it is large and requires the co-operation of many small and independent health facilities. Also, the local committee is aware that failure in this program may well discourage financial participation by both the State Health Department and of voluntary health agencies which has been provided for this program.

Painless Process
 The local committee of the Medical Society emphasizes that the examination, as far as the patient is concerned, is simple and painless, and consists merely of the collection of body secretion to send to the laboratory. The committee also announced that speakers will be available to women's organizations throughout the county who might wish to hear about the program or the test itself in more detail.

A portion of a release by Dr. Carson reads: "The present state of our knowledge in the treatment of cancer where acceptable and effective therapy is limited to surgery, radiation and some few specialized drugs depends on early diagnosis. In those areas where the disease is obvious, such as the skin, the percentage of cure with present methods is close to 100 percent."
 "The most important development in the early diagnosis of cancer is due to the work of Papanicolaou who developed the so-called cytology test or 'Pap' test. This test, by laboratory evaluation of cells, many times enables the diagnosis of cancer long before it becomes invasive and when it is amenable to treatment by comparatively simple procedures available in most every community hospital."

Neil Crowley Rites Conducted

Funeral services for Neil P. Crowley, 66, were held Jan. 28 at St. Patrick's Church Hogsburg, with the Rev. Joseph L. Stickelmeyer, pastor, officiating. Burial was in St. Patrick's Cemetery in Brasher Falls.

Mr. Crowley died on Jan. 25 in the Massena Memorial Hospital where he had been seriously ill for two weeks. Mr. Crowley was born in Helena on Aug. 17, 1896 the son of John R. and Ellen Burns Crowley. He attended Helena schools and graduated from St. Joseph's Academy of Malone and Cornell Business School.

Mr. Crowley married Ellen Kennedy of Springfield, Mass. on Nov. 12, 1942. They had since lived on the Crowley home farm at Helena, which Mr. Crowley operated. He was formerly a councilman for the Town of Brasher, and a member of the Massena Grange. He was also active in the Farm Bureau.

Surviving are Mrs. Crowley, a son, Cornelius, a freshman at Paul Smith's College; a daughter, Eileen, a junior at St. Lawrence Central School; and a sister, Mrs. Daniel Connolly, Bombay.

Sincerely yours,
 Edward C. Sampson

Norfolk Student Competing For ATI Winter Carnival King Honor Votes

Canton — Leonard Donnelly of Norfolk is one of the 10 students competing for royal honors at the Canton ATI Winter Carnival this year to be held Feb. 8 and 9.

Candidates for the royal family have been put up this year by the three fraternities and two sororities at the college. The two other candidates for king are Shuyler Bush, and Joe Kelly. Bush, a member of Sigma Delta Phi, is a senior in Hotel Management. He is from Richville, a graduate of the Herman DeKalb High School. He is president of the Student Council at ATI.

Kelly, a member of Alpha Theta Gamma, is a senior from Saranac Lake, and comes from Buffalo. He is president of Alpha Chi Omega sorority and a committee chairman of the Women's Self-Government Association. Miss Wilson is a Business Administration major in IBM. She is from Kenmore and at ATI she is vice president of the Student Council and a member of Phi Epsilon sorority.

Sandra St. Andrews and Regina Higbee are running for the position of princess. Sandra is a freshman secretarial student, a graduate of the Ogdensburg Free Academy. She is pledged to the Pi Nu Epsilon sorority. Miss Higbee is a freshman secretarial student from Rochester. She attended Greece, Olympia High School and is now an Alpha Chi Omicron pledge at ATI.

The princess running are Howard Corcimiglia, Gary Urtel, and Scott Myers. Corcimiglia, a hotel management freshman, comes from Leroy. He is a Sigma Delta Phi pledge and president of the freshman class. Urtel of Lockport attended Royalton-Hartland High School. He is a freshman in the agricultural department and a member of Alpha Theta Gamma fraternity.

Scott is from Haines Falls and a freshman in mechanical design. A graduate of Cairo High School, he is a pledge of Zeta Alpha Phi at ATI.

Voting for royalty will go on throughout most of Feb. 8 — the opening day of the carnival. Informal announcement of the winners will be made at the basketball game that evening. The formal crowning will be held at the carnival ball on Feb. 9. The carnival, whose theme is "Scandinavian Holiday," will run through Feb. 8 and 9 and will include a varied program of sports and social activities.

Lowell Todd has been accepted at the State University Agricultural and Technical Institute at Canton to major in the field of Business Administration. He is the son of Mr. and Mrs. Herbert Todd, Winthrop.

Mr. and Mrs. Aubrey W. Todd, 22 Judson St., will celebrate their 60th wedding anniversary Sunday from 2 to 5 p.m. with an open house at the home of their daughter and son-in-law, Mr. and Mrs. Walter J. Leonard.

Married in the home of the bride on Feb. 5, 1913 by the late Rev. Frank Beale, the Todds have lived in this area for 48 years. Todd is a graduate of Canton AT and before his retirement two years ago, he was for many years a cattle and horse dealer.

On the February court calendar for St. Lawrence County there are 64 civil cases listed. Court opens here Feb. 5 with Roger W. Daniels, county judge, presiding.

Sixty trial jurors have been selected by the St. Lawrence County Commissioner to serve in the February term of county court. The following local residents were chosen to serve: Frank L. Bean, Route 1, Norfolk; Evelyn F. Dwyer, Potsdam; Harold L. Elliot, Route 4, Winthrop; Emily B. Fisher, Route 1, Madrid; Ralph E. Gilmore, Potsdam; Joseph L. Jackson, Route 2, Winthrop; Helen M. Johnson, Potsdam; Glenwood N. Kingsley, Norwood; Dorothy H. Klein, Potsdam; Dorothy M. Powers, Route 1, Colton; and James F. Wilson, Route 3, Potsdam.

In talking about the future, President Herron said a committee, composed of the associate director of libraries at Columbia University, the librarian at Johns Hopkins University, the manager of the IBM Research Library, and the associate librarian of the New York State Library, has been considering the library in relation to the academic program and in the future. It supports now and in the future. Its report, he feels, will initiate vastly improved library services and facilities.

High Demand

On graduation Clarkson students continue to be in high demand by employers. Last year Clarkson seniors were placed at an average starting salary of \$6,650 which was up 6.6 percent over the level of the preceding year. Nearly 200 companies visited the campus to interview students, and more companies indicated an interest in the seniors of each department than there were seniors in that department.

According to firemen, the blaze started about 8 a.m. after an oil burner stove exploded on the inside. Loss was estimated at \$7,500.

Monday morning Sheriff's deputies investigated an accident on Route 11B one mile from Potsdam when an auto driven by Mrs. Lloyd Hollister of Potsdam, struck an auto driven by Michael Smith, 17, as the Smith car drove from a driveway. No injuries were reported but police said extensive damage was done to both cars. Poor visibility due to high banks of snow was blamed as the cause of the accident.

Winter Storm

(from page one)
 Bridge and was rammed broadside by a second car. Two men were taken to the E. J. Noble Hospital.

Man Jumps
 Fire struck the Douglas Gardner home Sunday at the corner of Lawrence and Frances Streets. Gardner was seriously injured when he dove head first through a second story window to escape flames. He was taken to the Potsdam Hospital and treated for lacerations to the head and arms. His mother, Mrs. Anna Gardner, who occupied the house with him, was treated at the hospital for burns to the

2200 Enrollment

(from page one)
 10 Percent of Total
 Discussing the graduate program, he said, "We intend to weld undergraduate, graduate and research work in such a way that the excitement of learning, of creativity, and of professional purpose further become an outstanding characteristic of our campus. We eventually expect graduate student enrollments to be 10 percent of the total college enrollment. At present we are giving doctorate work in chemistry, chemical engineering and physics, and master's work in these areas plus those of civil, mechanical and electrical engineering. Forty-five students are now taking such work in the day-time program and this will be increased to about sixty next year."

President Herron reported that last year the Clarkson faculty carried on 15 sponsored research contracts for \$265,000 worth of work. This year, he added, he expects this work may reach the 1/3 million dollar mark.

Reviewing the college's summer program, the president noted that last summer Clarkson operated seven different programs involving over 600 people. The people ranged from high school students to adults having many years of business and teaching experience. Next summer's programs include the Western Electric Company's Graduate Engineering Program, the National Science Foundation's Institute for High School Teachers of Mathematics and Science, a conference of the New York State High School
