KNITTING TIPS! Did you know that when tying in a new strand of yarn, it should be attached at the edge of the garment instead of the middle of a row? If you are attaching the same color yarn you may also splice the two ends by threading a tapestry needle with the new strand and weaving it into the old strand about three inches. Remove the needle and pull the two ends taut. They should form a single strand that is not only invisible from both sides of the garment, but will never pull apart. And there are no loose ends to weave in later. For help and assistance in knitting, drop in to the Yarn Barn, 10 Waverly St. Potsdam. 1w1*
FOR SALE or trade for cattle, Shetland pony. Call CO7-9244. 1w1*
