SS Provides Three Benefits

"Many people in the St. Lawrence County area are not aware of all the benefits afforded them under social security," John P. Moulton, social security district manager in Ogdensburg, states.

"Some people think that social security only provides retirement benefits," he continued. "They don't know that social security also provides benefits for workers and their families in case of the worker's disability or death."

"In fact we say that social security provides three-way family protection against loss of income. Those three ways, again are in case of retirement, disability, or death."

Social security benefits are not automatic, however; you must apply for them. There are more than 600 social security offices throughout the United States where you can get assistance in making a claim for social security benefits.

In addition, there are many other locations where social security representatives meet with the public to take claims or furnish information. Information regarding the locations of the social security offices and other contact points may be obtained at your post office.

"People who have questions about social security should get in touch with us," Moulton said. "That's why we're here. Our staff is trained to answer your questions. In addition to claims assistance, your social security office issues social security numbers and informs wage earners, self-employed
