

League Launches Membership Drive Bridge Tourney Runs from Oct. 1 to May 1

The Potsdam-Canton League of Women Voters is launching its membership drive with a tea at 8 p.m. Monday at the home of Dr. and Mrs. W. N. Gill, Sisson St., Potsdam.

What is the League of Women Voters? The League was founded in 1920, just in time to help 20 million women carry out their new responsibility... the right to vote.

It is a nonpartisan organization open to all women of voting age who believe in representative government. The purpose of the League is to promote sound citizenship through informed and active participation of citizens in government. There are 146,000 women in the League who study local, state and national governmental issues in the United States.

Locally, the League of Women Voters functions in many ways. We have study groups on urban renewal in Potsdam including attention to recreation and sewage disposal, on human resources and the provision of equal opportunity for education and employment, on foreign policy with our own 'China Watchers' on the N. Y. State constitutional convention which is current and exciting.

The League acts as well as studies. It has meetings with local and state elected officials, it has representatives reporting on all local board meetings such as the town board, village board and school board, and it provides reference and study materials to the libraries and for research.

One of our most important functions is voter service preceding elections when the League works very hard to inform ourselves and others on candidates and ballot issues and to encourage registration and informed voting and to provide factual, nonpartisan information on all phases of the election.

The League is looking for women who are concerned about water pollution, good schools and foreign policy, women who are intrigued by politics or are simply interested in good government, women who like to discuss and act on issues with other women who are involved and interested, women who want to be better citizens. Interested? Call 265-9324 for an escort and ride to the membership meeting, 8 p.m. Monday.

We'll pay you \$50 to take more baths.

All you need to take more baths is more hot water. Which happens to be the only kind of water a quick-recovery electric water heater has. It just doesn't run cold. It replaces as much hot water as you use, just as fast as you use it. No more waiting around for cold water to heat up. No more mid-shower chills, if you don't happen to take baths.

Besides, this quick-recovery electric water heater can go almost anywhere. No chimney, flue or fuel tank to bother with. No pilot light to worry about, either.

What about the \$50? Niagara Mohawk will pay you \$50 when you buy an electric quick-recovery

water heater. All you do is replace a non-electric heater between February 1 and April 10, and install it on Niagara Mohawk lines by April 30, 1967. We'll pay \$15 toward installation costs if you replace an old-style electric water heater. Your new unit must be a 4,500-watt, upper and lower heating element, 40-gallon minimum, electric water heater.

Pretty clean sweep. **NIAGARA MOHAWK** Working hard to make electricity work harder for you.

The serving of distinctive food in a distinctive manner can win any homemaker the honor of being an accomplished hostess. One rule of thumb to achieve this goal is to develop the courage to depart from the "usual" or the "obvious" pattern.

Departing from the so-called accepted standard may cause a few qualms. After all, what will people think if you don't serve potato chips with the appetizer, roast beef or steak for the main course, and apple pie or chocolate cake for dessert? These aforementioned foods have become the "standard" fare for dinner parties, yet in many cases, they are indicative of the rut many hostesses occupy. They occupy this position simply because they feel they will be criticized for departing from the usual pattern. They also feel that these are the so-called "company foods."

The distinctive hostess might serve a nippy spread with melba toast to accompany the appetizer. She may plan the main course around a home-made chowder, a special chicken dish, or a lobster quiche. And for dessert, she may offer a fine imported cheese with fresh fruit, or a variation of a baked custard. She takes the common everyday ingredients and learns how these are prepared in other countries and in other regions of the U.S.A.

For a start, let's consider hard-cooked eggs. The usual way to prepare these items is to boil them, to prepare a sandwich filling, or to stuff a tomato with the egg mixture to create a salad. The following treatment is less common and the result is a distinctive hors d'oeuvre which might be served as an appetizer for a meal centered around a soup or chowder main course, or as part of the actual main course along with some cold marinated vegetables and a good crusty bread. Distinction does not involve serving weird foods. It comes from serving simple things with a touch of imagination.

EGGS WITH TOMATO SAUCE Yield: 6 servings

6 eggs, hard-cooked
1/3 cup mayonnaise
1/3 cup sour cream
1 medium tomato, peeled and chopped
3/4 teaspoon dried tarragon leaves, crumbled
Dash of lemon juice, salt, and pepper

1. Shell the cooked eggs and cut them in half lengthwise.
2. Arrange the eggs, cut side up, in a serving dish.
3. Combine the remaining ingredients and spoon the mixture over the eggs at serving time.
