Since it's never in, it's never out.

Each year the new cars come rolling out with the latest frills.

Wow.

And each year the old Volkswagen rolls out looking just the same.

Ho hum.

But when the year goes by, new fads soon outdate the old fads. And the hottest-looking car last year is just that: the hottest-looking car last year.

But a VW is still just a VW. Not looking up-to-date, but not looking out-of-date either. (So you'll never have a Has-Been on your hands when you want to sell it.)

Instead of wasting time making the VW look better, we spend our time making it work better.

And this year there are dozens of ways it works better. (That makes over 2200 in all since it first started working period.)

In the end, the choice is yours: pay a big price for a year of glory.

Or a small price for a VW.
