

## K. of C. Names Speaker

Dr. Charles W. Snyder, director of Liberal Studies and recruiter of Professional Personnel at the State University College at Potsdam, will speak at the Columbus Day dinner honoring the recipient of the Annual Civic Award as presented by Potsdam Council 340 of the Knights of Columbus.

The Award Dinner will be at 7 p.m. Saturday, Oct. 14, at the Potsdam Elks Club. It will be preceded by a cocktail hour at 6.

The local resident to be honored for outstanding service to the community will be selected by knights at their regular meeting on Tuesday, Oct. 10, from the list of nominees submitted by the people of the area. With the necessity of

knowing an approximate number for which to prepare and due to the short period of time remaining after the Award winner is known, it is imperative that all interested persons obtain their dinner tickets prior to Friday noon, Oct. 13. Tickets will be available at the Family Shoe Store or from Winford Dodds, committee chairman; Robert Rowe, Guy Coolidge or Gerald Bradshaw.

### Bonds Approved

The Potsdam Village Board Monday night approved a \$125,000 bonding program as its cost for acquiring land and developing the Potsdam Airport.

The other \$125,000 of \$250,000 project is to be paid for by the Federal Aviation Administration.

The board also approved a plan to beautify the village over the next five year period. The total cost of the project would be \$283,000, half of which would be paid for by the federal government, if it acts favorably on the proposal to be submitted soon. At the same time, it is hoped the village will be eligible for state funds, which would reduce its 50 percent cost even more.

He urged all key division chairmen to collect results from solicitors by Wednesday night to meet the Thursday deadline. "We will complete the campaign with 100 percent by Oct. 29 if everyone keeps working at the current pace," stated Moore.

### Ponders Wisdom of Bypass Plan

tion, proceeding across a bridge near the present railroad bridge, and continuing northerly near the old railroad tracks to Route 56 near the shopping center) is the best solution for Potsdam.

I do know that many others, some among them with professional competence to judge such matters, do not believe the proposed route to be the most effective.

I do not know that Village Board, Town Board, Village Planning Board, Town Planning Board, Clarkson officials, State College officials, and other affected groups with special competence or interest have been consulted and are agreed that, of the routes available, the present proposal is the best for all concerned.

I should like to feel that a "great debate" had occurred in Potsdam and that out of it had come a wise and democratic decision that would stand as a memorial to the foresight of those responsible. I do not feel that such a "debate" has taken place yet.

Action was not taken on the proposal to make the north side of Fall Island into a Village Park and Recreational Center. Now the presence of Whites Hardware, in what was at the time of the proposal an empty building, would make any such action in the future much more difficult. Such is the case, on a far greater scale, with the proposed highway.

I read with great satisfaction and gratitude to Mayor Anderson and his committee the news story in the Courier Freeman about the Village's five year beautification plan, and I note continually with pleasure and thanks the many improvements resulting from the current efforts at beautification.

I should hate to see a sprawling, multi-laned highway and bridge overwhelm these tentative and hopeful steps toward making Potsdam a more beautiful and pleasant place in which to live and work.

If it is decided, after careful consideration of all alternatives and the requirements of the present as well as of the predictable future, that the current plan is the most effective and beneficial for Potsdam, I shall accept, with philosophical and democratic resignation, the loss of my home as part of a progressive program to benefit the many.

But I do not want us to accept from the State what is not truly in our best interests merely because we need a highway and bridge and are afraid to lose them if we object to the present location.

Such construction, once built, will either be a monument to short sightedness and folly or to far-sighted vision. Let us make sure, when it is built, that it is a monument to vision.

Saturday morning classes and laboratories will be open to visitors, and faculty advisors will be available for conferences with parents. A special convocation has been planned for 11 a.m. in Snell Auditorium, during which a three-man panel of professors from Clarkson's Schools of Engineering, Business and Arts and Sciences will discuss "30 Days After." The convocation, which will include a question and answer session, will be moderated by Ernest M. Moore, dean of student affairs at the college.

During the afternoon, parents and students are free to visit together, attend the Clarkson - Ithaca College soccer game, and meet with faculty and staff at a social hour scheduled for 4 p.m. in Alumni Gymnasium.

The evening schedule offers a variety of activities, including a 7 p.m. showing of "Damn the Defiant," and a 9 p.m. to midnight dance and entertainment program at the Potsdam Civic Center.
