CHOP THE COST OF HEATING YOUR HOME TO ALMOST NOTHING BY INSTALLING A YUKON WOOD OR COMBINATION WOOD/OIL, WOOD/GAS (WHOLE-HOUSE) FURNACE. YOU GET:

- Automatic whole-house central heating.
- Automatic ignition of wood fuel (in combination units).
- Automatic switch over to your standby fuel. (Oil or gas) when your wood fire burns down.
- Double Heat Exchangers (2) giving an average of 37% more surface than is found in other furnaces of similar size.
- Safe, Solid Fire brick — 2" thick fire brick gives lasting quality and increased heat retention for better efficiency.
- Hand Firing in mild weather. No need to use gas or oil. Ignite as you would a fireplace.
- Yukon AFTER-BURNER[®] Jet-System introduces combustion air at the top of wood fire to ignite unburned gases found at top of flame. This makes the Yukon truly different. Ordinary wood burning heaters waste as much as 50% of the available heat found in wood.
