**SYRACUSE** — A new master energy control center, now in early construction stages at Niagara Mohawk Power Corp.'s Henry Clay Boulevard complex in Syracuse, will help monitor and manage power delivery to NM's 1.3 million electric consumers starting in the mid-1980s, the utility has reported.  
 Richard C. Clancy, senior vice president, stressed, "This development is among many in a forward-looking company-wide campaign to maximize efficient use of existing power facilities — all to help control energy costs for Niagara Mohawk consumers."

### Save a Merry Little Bundle.

Just until Christmas, we're offering special prices on all kinds of Apple's goodies — including Apple Christmas Packages, all-in-one Apple II and Apple III systems, complete with software.  
 But if you've already got an Apple, consider one of our stocking stuffers.

#### Numeric Key Pad

Let your fingers do the thinking with a calculator-style keypad for the Apple II+. Includes cursor control keys. Great for VisiCalc! Easy to install.

#### 16K Language Card.

Improve your memory for less. Bumps your 48K to 64K, which is what you need to do if you're interested in Apple Logo, the hot new self-teaching programming language.

#### Game Controllers.

At last: high quality, well-engineered controllers that can stand up to all night sessions of ABM and Raster Blaster. For those serious about playing around.

#### Green Phosphor Monitor III.

Save your TV for Captain Kangaroo. The Monitor III is a lot easier to look at and now so is the price. Save on black and white monitors, too.

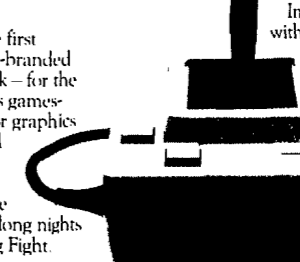

#### Software Specials

Specials on blank diskettes, too.

### The Apple Joystick.

The first Apple-branded joystick — for the serious gamesman or graphics wizard. Built to endure many long nights of Dog Fight.

### Diskette Files

Improve your diskette with our smoked plexi file or economical book-sized binders.

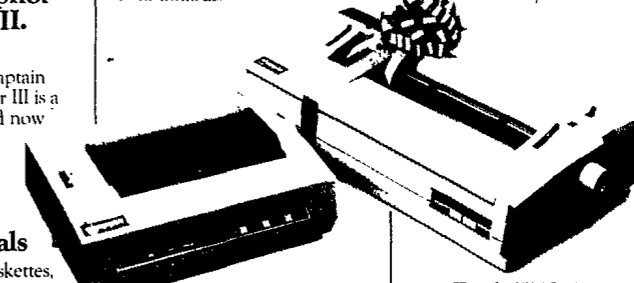

### Apple Printers

Apple now has a full line of printers — thermal, dot matrix and letter quality. And only Apple printers, with full electronic compatibility, can get the most out of Apple software.

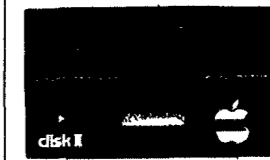

### Monitor Stand.

A better resting place for your monitor. It also lets your Apple II+ slide in and out for easier access to its innards.

### Disk II Drives.

Everybody needs more storage space, especially people who've been struggling along with one drive or (perish the thought!) a cassette recorder.
